

Project Name: HCG Tien Thuan Solar Power Plant

Project Size: 100 MW

Project Type: Utility Scale Solar

Project Location: Tay Ninh Province, Vietnam

Project Developer: Boviet Solar

Hoang Thai Gia Trust Investment and Management Company Limited and HCG Tay Ninh Solar Power Joint Stock Company have successfully energized HCG & HTG solar power plants in Moc Bai border economic zone, located in Tien Thuan and Loi Thuan communes, Ben Cau district, Tay Ninh province.

The HCG and HTG solar power plants are developed in an area of nearly 117 hectares (ha), with an installed capacity of 100MWp, using photovoltaic panels technology, connected to the regional 110kV grid. The project has a total investment of nearly 1,600 billion VND, initiated and developed by Hai Dang Joint Stock Company and deployed by Reonyuan Power Singapore investor.

Tay Ninh is considered as a province with great potential for solar energy, with an annual radiation amount of 5.4 – 5.65 kWh/m²/day. The investment in HCG and HTG solar power plants not only exploit the potential of energy of the sun, but also make use of the infrastructure of Moc Bai border-gate economic

zone, ensuring investment and social efficiency. The HCG and HTG solar power plant project is designed to generate electricity and efficiently exploit the natural energy potential in Moc Bai area, Tay Ninh province.

BOVIET SOLAR

Founded in 2013, Boviét Solar is a part of Boway Group and a global Tier 1 solar technology company that specializes in the manufacturing of Monocrystalline-based PERC PV cells and modules, and the development of solar projects. The company works with IPPs, EPCs, project developers, solar installers, and contractors and delivers top-performing PV modules to utility-scale, commercial, industrial, residential solar projects. Boviét Solar brings financial stability, technology know-how, manufacturing excellence, supply chain transparency, and top-performing PV modules that are recognized for their power, performance, and quality.
